APPENDIX – A - FINANCE

MK had to make apologies for the meeting but shared the attached Finance Summary with the Committee – AM including as appendix for reference.

Period 5th April 2026 to 30th September 2026, the summary of income and expenditure for that period is below, broken down into categories as per request at last committee meeting, I attended.

The balance of the **charity account** on 30th Sept was £476.31 (has since increased to £4044.90 with additional rental income as well as grant payments). Sheila is matching off grant income versus expenditure separately and this will mean the charity account fluctuates as we balance the cash flow.

The balance on the **deposit account** is £11024.87

Please note, these are bank transactions only and do not include any cash held as floats or for 100 club.

I can talk through these at committee meeting post AGM.

Forward Forecast:

- Excluding one-off activities, the hall's recurring expenditure is approximately **£255 per month** (£3060 per annum) based on April to September transactions.
- With Rental income of £2916 so far in 6 months, the cost of full year running has almost been achieved.
- I would recommend we agree a floor limit in the deposit account of £4k at any point in time – ensuring we are 125% of a full year running costs in reserve in the event rental income subsides.
- Nonetheless, from everyone's exceptionally hard work, it does appear to be a healthy return to operating post refurbishment.

Key Observations

- **Grant / Refurbishment Costs (£4,750.88)** are by far the largest expenditure category, accounting for around 60% of all spending.
- **Rental Income (£2,916.00)** is the largest source of operational income.
- **Solar Export receipts (£1,025.56)** provide a significant secondary income stream.
- Excluding one-off activities, the hall's recurring expenditure is approximately **£255 per month**.
